

STEAM GENERATORS

Our newest line of steam generators are engineered to provide top performance under demanding conditions and a variety of water types without failing. Smart control units give you full access to current status and functions. And most importantly our steam generators will envelope you in rich, dense and warm steam and relaxation.

QUALITY

For over 30 years we have been manufacturing steam generators at our factory in Sweden and have taken great pride in producing top quality products. Smart technical solutions form the basis for sustainable products and are a key contributing factor to our industry leading position.

COMMUNICATION

Our control panels allow you to control and monitor up to three steam generators from the same location. You can also set it up on your computer or mobile device.

INTELLIGENCE

Two-way communication between the control panel and the steam generator provide a handy real-time overview of all functions.

SUSTAINABILITY

Quality control, smart technology and a strong focus on water and energy consumption, we have designed Tylö's steam generators for minimal impact on our environment. The stand-by mode option and our "divided output" function can reduce energy consumption by up to 30%.

Speed heat

Greater energy efficiency through faster warm-up times.

Standby

Less energy consumed and faster reaction time to heat sauna or steam room.

Wi-Fi

Wifi connectivity for comfort, control and convenience.

It's all about water

LESS MAINTENANCE

A Tylö steam generator will run for many years with no interruption and a minimum of maintenance. They come with an automatic emptying function set according to the water quality in your area.

HIGH LEVEL OF COMFORT

Whether our steam generators are installed in a home or public setting, they are designed to offer top-quality enjoyment comfort and safety without interruption. The convenient Multi-Steam function ensures uninterrupted operation in heavily-utilised facilities.

IT'S NOT JUST STEAM

Our new steam generators set a new industry standard with their innovative solutions based on decades of experience.

WE MAKE SURE EVERYTHING OPERATES SMOOTHLY

To ensure proper steam generation, it is important to analyse the water in your area. The quality of the water has a major bearing on both the function and service life of your steam generator.

Contact your local TylöHelo dealer to determine the water quality before ordering your steam generator system. Sometimes your local water company may be able to provide the information you need.

SMARTER STEAM GENERATION

Speed heat

Standby

Leave the challenges of everyday life behind and enjoy the perfect end to your day in a relaxing steam bath.

TylöHelo has a strong tradition of providing steam generators for public and private use. Our latest series is fitted with a state-of-the-art control unit to ensure precise operation. Control the steam, lights, timer and other features at the simple touch of a button. Add fragrances and relax. Indulge yourself and all your senses.

TOTAL CONTROL WITH ELITE

Control and monitor your steam room from a distance using nothing but local WiFi, a mobile device and Tylö's app WellAccess™. The app is especially developed to optimise your steam experience and is compatible with iOS, Android and desktop PCs.
