

D LINE

For a beautifully clean pool!

BWT ROBOTIC POOL CLEANERS PROVIDE IMPECCABLE CLEANING, CLEAR WATER AND IMMACULATE SURFACES.

*Excellence
inside!*

Excellence inside!

BWT D-LINE ROBOTIC POOL CLEANERS PROVIDE IMPECCABLE CLEANING, CLEAR WATER AND IMMACULATE SURFACES.

WHY ARE BWT ROBOTIC POOL CLEANERS THE BEST?

*Because they
offer much better
filtration.*

Where is the point in brushing and vacuuming if particles are released back into the water? This is, however, the case with standard pool robot filtration. With BWT, it is a completely different story, because Best Water Technology is the international leader in water purification and treatment solutions. Fine filtration is our core business at BWT.

Unmatched suction power

BWT robotic cleaners feature the most powerful suction of any robot on the market. They can double their suction power through precise adjustment of the intake valves.

The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, the intake valves can be set down low to effortlessly remove every grain of sand.

Power inside!

Among the finest filtration performances on the market

The 4D filter consists of elastic 3D microfibre loops, which, coupled with the vibrating motion, maximises water throughput.

The vibration improves the suction power and prevents clogging of the filters.

The 4D filter traps even the tiniest impurities. From leaves to grains of sand, nothing escapes.

Finesse inside!

Ideal for your pool

BWT robotic pool cleaners are perfect for every pool of any shape up to 10 m long.

With their high density foam brushes, BWT robotic pool cleaners adapt to every pool finish.

PVA inside!

Top access and easy cleaning

BWT robotic pool cleaners are **intuitive** and easy to use. With the touch of a button the D200 gets to work all by itself. Freedom is yours!.

Simplicity inside!

Agile on any surface, with an excellent grip

BWT robotic pool cleaners easily **climb the steepest slopes**. Always astonishing to see!

Fast cleaning

BWT robotic pool cleaners move quickly and clean fast. They feature the intelligent and exclusive **Smart navigation system**.

Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, and then **computes the cleaning path**. The cleaning cycle is shorter and the entire surface to be cleaned is covered.

The pool floor, walls and waterline are **perfectly clean** with a minimum number of passes, and **in record time**.

Smart Navigation!

BWT D LINE 200

Technical data

| | |
|---------------------------|--|
| Pool size | For pools up to 10 m long (any shape or surface finish) |
| Cleaning type | Floor, walls and waterline |
| Cleaning cycle duration | 2 hours |
| Filter type | 4D, hyperfine microfibre |
| Filter access | Top Access, Easy push button |
| Type of brushes | 4 PVA brushes |
| Extra brush | Vibrating PVC brush |
| Navigation system | Smart Navigation |
| Gyroscope | Yes |
| Power supply | < 29 Volt, SPS Basic |
| Power consumption | < 150 Watt |
| Platform | Dual drive, Breezer technology |
| Suction flow rate | 19 m ³ /h |
| Cable length | 18 m, premium grey |
| Anti-tangle swivel | Yes |
| Adjustable intake | Yes, Higher suction power |
| External timer capability | Yes, also compatible with external WiFi |
| Dimensions (L x W x H) | 39.1 x 46.9 x 26.8 cm |
| Weight | 11 Kg |
| Storage accessory | Premium Caddy |
| Guarantee | 2 Years |

Breezer technology & Ultimate power

BWT robotic cleaners are equipped with **Breezer technology**, an efficient and **hard-wearing gear transmission**; paired with two drive motors and a **powerful pump** to collect debris, the BWT D200 is one of the most reliable pool cleaning robots on the market.

This is the **Ultimate Power** system, the ideal solution for fast, optimised travel, unrivalled reliability, and unmatched cleaning.

Energy savings

BWT robotic pool cleaners clean quickly and efficiently. They consume little energy and provide impeccable cleaning.

Ergonomic

The robotic cleaners are designed and created to be comfortable and easy to use, a push button allows the filter to be released and pulled out from above and then cleaned without getting your hands dirty.

Safe and reliable

The safety of users is of utmost importance.

This is why BWT robotic pool cleaners run off a low voltage transformer and are **fitted with an automatic stop**, as required by European standards.

The devices are also equipped with in water and out of water safety mechanisms.

Adjustable handle

The BWT D200 robotic cleaners feature an adjustable handle. In its stationary position, it can be used to carry the robotic cleaner, in the water it intelligently balances the cleaner, acting as a counterweight. The handle on the robotic pool cleaner can be set in a diagonal position to optimise the cleaner's path in the pool.

Agility inside!

A world made for you!

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind.

Don't hesitate, step into an exceptional world.
